

Electricity Out of Contract Rates

Updated 2nd June 2025

All customers will be placed on our Out of Contract rates when no renewal or alternative contract is agreed with us and the customer has failed to transfer supplier. These rates (or any replacement) will remain in place for as long as Crown Gas & Power remain the registered electricity supplier to your meter point or until a new contract is agreed with us.

Our Out of Contract rates consist of a unit charge applicable to all consumption and a daily standing charge (site specific). Charges in addition to our published rates may apply as follows:

- Site specific capacity charges and excess capacity charges (For Profile Class "00")
- Reactive power charges (where applicable)
- Climate Change Levy and/or VAT

To determine which charges applies to your supply, firstly check if your Distributor ID appears in the Table 1 or Table 2 below. If it does then the corresponding charges will apply.

Please refer to your MPAN and look up the Distributor ID within the relevant price table. Profile class "00" is Half Hourly (Table 2) and all other profile classes e.g. "01" to "08" are Non-Half Hourly (Table 1). Please refer to the example MPAN below:

Profile Class Distributor ID

If your Distributor ID does not appear in the table below then you are likely to be connected to an independent network and you will need to contact us to determine your GSP. Please contact our Customer Services Team at hello@crowngasandpower.co.uk

You will then be able to look up your charges based upon your GSP within Table 1 and Table 2. Alternatively, there are resources online to determine this yourself. Please remember that Profile class "00" is Half Hourly (Table 2) and all other profile classes e.g. "01" to "08" are Non-Half Hourly (Table 1).
